Question Name

Concept Local Health Integrated Networds (LHIN) - Ontario - (D)

Question

Universe Respondents with GEOE_PRV = 35

Note Based on GEOE_PRV, GEOE_PC. Data in Ontario are provided for two levels of geography: Public Health Units (PHU) and the Local Health Integration Networks (LHIN). Because health units were the principal areas of interest at the time the Cycle 3.1 sample was designed, data are weighted to match PHU population totals rather than LHIN totals. As a result, analysis involving calculation of totals by LHIN may be misleading. For Cycle 3.1, Statistics Canada recommends that analysis of data by LIHN be restricted to the calculation of ratios. See documentation on derived variables.
