MEX_080 was coded as "not stated" for respondents who reported a weight gain during pregnancy that is higher than their total weight before pregnancy (MEX_080 > MEX_070).
Users should take caution with extreme values for the variable MEX_085. It is possible that for certain cases, due to a misunderstanding of the question, this value represents the total weight at the end of the pregnancy, rather than the weight gained during the

pregnancy.

Concept: Baby's feeds - other liquids - age - reporting period

Question Text: Was this time in days, weeks, months or years?
If respondent reports less than 1 year but with a fraction, round the amount up. For example, 3 and 1/2 months would become 4 months.
If the respondent reports more than a year, with half values, report in months. For example, 2 1/2 years = 30 months.

Universe: Respondents aged 15 to 55 with DHH_SEX = 2 who answered MEX_155 = (1:730)

Note: Was not asked in proxy interviews.

Concept: Passenger vehicle - driver had 2+ drinks and cannabis /2h - 12 mo

Question Text: During the past 12 months, have you been a passenger in a motor vehicle driven by someone who had two or more drinks of alcohol and had been using cannabis in the

previous 2 hours?

Universe: Respondents who answered DWI_005 = (1 or 2) and DWI_010 = (1 or 2)

Note: Was not asked in proxy interviews.
Due to an error in the 2019 Questionnaire and Collection Application, DWI_015 was skipped when respondents answered DWI_005 = 3, meaning they were not a passenger with someone who had 2 or more drinks of alcohol before driving. Since DWI_015 was meant to ask about being a passenger with someone who had "any amount" of alcohol (and cannabis), those people should not have been skipped. To make the questions consistent, DWI_015 is therefore being treated as representing "2 or more drinks" of alcohol: for respondents who answered DWI_005 = 1 (once) and DWI_010 = 1 or 2 (once or more than once), but DWI_015 = 2 (more than once), the value of DWI_015 has been changed to 1 (once).
